

# **SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION**

### 1.1 Product identifier

Product name: No Spot 20 Product Code(s): No Spot 20 Synonym(s): Surfactant blend

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

General use: High temperature rinse aid for dishmachines
Uses advised against: For industrial and institutional use only

# 1.3 Details of the supplier and of the safety data sheet

Manufacturer/Supplier

VistaServ

1509 Edgar Place

Sarasota, FL 34240 USA

941-925-9277

### 1.4 Emergency telephone number

24-Hour Emergency: ChemTel, Inc. - (800) 255-3924; +1-813-248-0585

## **SECTION 2 - HAZARDS IDENTIFICATION**

### 2.1 Classification of substance or mixture

Product definition: Mixture

Classification in accordance with 29 CFR 1910 (OSHA HCS) and Regulation EC No. 1272/2008

Acute Toxicity, Oral - Category 5 [H303] Skin Irritation - Category 2 [H315] Eye Damage - Category 1 [H318]

#### 2.2 Label elements

Hazard symbol(s):

Signal word: Warning

Hazard statement(s): H303 - May be harmful if swallowed

H315 - Causes skin irritation

H318 - Causes serious eye damage

Precautionary statements:

[Prevention] P264 - Wash hands and other exposed skin areas thoroughly after handling.

P280 - Wear protective gloves, protective clothing and eye protection.

[Response] P305 + P351 + P338 = P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if

present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.

P312 - Call a POISON CENTER or doctor if you feel unwell. P332 + P313 - If skin irritation occurs: Get medical attention.

### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

None known

## SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substances

Not applicable

### 3.2 Mixtures

% by Weight	Ingredient	CAS Number	EC Number	Index Number	GHS Classification
70 - 90	Surfactant Blend	Proprietary			H302, H315, H318
0.5 - 2	Tetrasodium EDTA	64-02-8	200-573-9	607-428-00-2	H290, H318

As per paragraph (i) of 29 CFR 1910.1200, formulation is considered a trade secret and specific chemical identity and exact percentage (concentration) of composition may have been withheld. Specific chemical identity and exact percentage composition will be provided to health professionals, employees, or designated representatives in accordance with the applicable provisions of paragraph (i).

Effective Date: 09 January 2019

There are no additional ingredients present in this product which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

# **SECTION 4 - FIRST AID MEASURES**

## 4.1 Description of first aid measures

**Inhalation:** If product mist or spray causes respiratory irritation or distress, move the exposed person to fresh air immediately. If breathing is difficult or irregular, administer oxygen; if respiratory arrest occurs, start artificial respiration by trained personnel. If unconscious, maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. If irritation persists, seek medical attention.

Eyes: Immediately flush eyes with large amounts of water or saline solution for at least 15 minutes, occasionally lifting the upper and lower lids. Remove contact lenses, if present and easy to do, after first 2 minutes and continue rinsing. If irritation persists seek medical attention, preferably from an ophthalmologist.

**Skin:** Flush skin with large amounts of water while removing contaminated clothing. Wash the affected area with soap and water followed by thorough rinsing. Wash contaminated clothing and shoes before reuse. If irritation persists, seek medical attention.

**Ingestion:** Rinse mouth with water if the victim is conscious. Remove dentures if present. DO NOT induce vomiting unless directed to do so by medical personnel. Vomiting may occur spontaneously. To prevent aspiration of material into the lungs, lay the victim on one side with the head lower than the waist. Never give anything by mouth to an unconscious or convulsing person. Do not leave the victim unattended. Seek immediate medical attention.

## 4.2 Most important symptoms and effects, both acute and delayed

### Potential health symptoms and effects

**Eyes**: Causes severe eye irritation and serious eye damage. Symptoms may include inflammation, tearing, pain and blurred vision. Mist or spray may cause eye irritation. Prolonged contact with eye can cause eye damage.

**Skin:** Causes skin irritation with localized redness, itching and discomfort.

Inhalation: Inhalation of mist or spray may cause respiratory irritation.

Ingestion: Causes irritation of the gastrointestinal tract with nausea, vomiting, abdominal pain and diarrhea. May be harmful if swallowed.

Chronic: Prolonged or repeated skin contact may aggravate existing skin conditions.

### 4.3 Indication of any immediate medical attention and special treatment needed

### Advice to doctor and hospital personnel

Treat symptomatically and supportively.

# **SECTION 5 - FIRE FIGHTING MEASURES**

## 5.1 Extinguishing media

Suitable methods of extinction: Use extinguishing media suitable for the surrounding fire.

Unsuitable methods of extinction: None known.

## 5.2 Special hazards arising from the substance or mixture

Closed containers may rupture due to the buildup of pressure when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent or may be delayed. Obtain medical attention.

Explosion hazards: This product is not considered an explosion hazard.

## 5.3 Advice to firefighters

Full protective equipment including self-contained breathing apparatus should be used. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion when exposed to extreme heat. Water contaminated by this material must be contained from being discharged to any waterway, sewer or drain to prevent environmental contamination.

# **SECTION 6 - ACCIDENTAL RELEASE MEASURES**

### 6.1 Personal precautions, protective equipment and emergency procedures

Evacuate non-essential personnel. Wear appropriate protective clothing and equipment designated in Section 8.2. Ventilate the area. Remove all sources of ignition. No smoking. Clean up spills immediately. Spill creates a slip hazard.

# 6.2 Environmental precautions

Avoid dispersal of spilled material or runoff and prevent contact with soil and entry into drains, sewers or waterways.

## 6.3 Methods and materials for containment and cleaning up

DO NOT flush large spills down the drain. Approach spill from upwind direction. Cover drains and contain spill. Cover spill with a large quantity of inert absorbent. Do not use combustible material such as sawdust. Collect material and place into an approved container for proper disposal. Observe possible material restrictions (Sections 7.2 and 10.5). Do not allow material or runoff from rinsing contaminated areas to enter floor drains or storm drains and ditches that lead to waterways. Dispose of in accordance with national, state and local regulations.

Effective Date: 09 January 2019 Page 2 of 7

#### 6.4 Reference to other sections

For indications about waste treatment, see Section 13.

# **SECTION 7 - HANDLING AND STORAGE**

### 7.1 Precautions for safe handling

Wear all appropriate personal protective equipment specified in Section 8.2. Do not get in eyes or on skin or clothing. Do not inhale mist or spray. No smoking. If normal use of material presents a respiratory hazard, use only adequate ventilation or wear an appropriate respirator. Wash contaminated clothing and shoes thoroughly before reuse.

### Advice on protection against fire and explosion

This product is not considered to be a fire or explosion hazard.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in dry, cool, well-ventilated areas away from incompatible materials (see Section 10.5), food and drink. Keep from freezing. Transfer only to approved containers having correct labeling. Keep containers tightly closed when not in use. Protect containers against physical damage. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Containers are hazardous when empty as they contain product residue. Use appropriate containment to avoid environmental contamination. Ventilate closed areas. Keep out of reach of children.

## 7.3 Specific end uses

Apart from the uses mentioned in Section 1.2, no other specific uses are stipulated.

## **SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION**

## 8.1 Control parameters

Contains no substances with occupational exposure limit values.

#### 8.2 Exposure controls

**Engineering measures:** Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. Use adequate ventilation. Local exhaust is preferable. Refer to Section 7.1.

**Individual protection measures:** Wear protective clothing to prevent repeated or prolonged contact with product. Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the representative supplier.

**Engineering measures:** Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. Use adequate ventilation. Local exhaust is preferable. Refer to Section 7.1.

**Individual protection measures:** Wear protective clothing to prevent repeated or prolonged contact with product. Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the representative supplier.

**Hygiene measures:** Facilities storing or using this material should be equipped with an eyewash station and safety shower. Change contaminated clothing. Preventive skin protection is recommended. Wash hands thoroughly after use, before eating, drinking, smoking or using the lavatory.

Eye/face protection: Wear safety glasses with unperforated side shields or protective splash goggles during use.

**Hand protection:** Wear gloves recommenced by glove supplier for protection against materials in Section 3. Gloves should be impermeable to chemicals and oil. Breakthrough time of selected gloves must be greater than the intended use period.

**Skin protection:** Wear protective clothing. Wear protective boots if the situation requires.

Respiratory protection: Always use an approved respirator when vapor/aerosols exceed permissible exposure limits. Where risk assessment shows air-purifying respirators are appropriate use a half-mask respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Follow OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149.

Environmental exposure controls: Do not empty into drains.

PPE must not be considered a long-term solution to exposure control. PPE usage must be accompanied by employer programs to properly select, maintain, clean fit and use. Consult a competent industrial hygiene resource to determine hazard potential and/or the PPE manufacturers to ensure adequate protection

# **SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES**

# 9.1 Information on basic physical and chemical properties

Appearance Clear, blue colored liquid
Odor Characteristic

Effective Date: 09 January 2019 Page 3 of 7

Odor ThresholdNo data availableMolecular WeightNot applicableChemical FormulaNot applicablepH6.0 - 9.0

Freezing/Melting Point < 0 °C (< 32 °F) [estimated]

## **SECTION 10 - STABILITY AND REACTIVITY**

### 10.1 Reactivity

This material is stable under recommended conditions of handling and use.

### 10.2 Chemical Stability

This material is stable under recommended storage and handling conditions.

## 10.3 Possibility of hazardous reactions

Hazardous polymerization will not occur.

#### 10.4 Conditions to avoid

Avoid temperature extremes, contact with incompatible materials

### 10.5 Incompatible materials

Strong oxidizing agents, strong acids

# 10.6 Hazardous decomposition products

Thermal decomposition products include oxides of carbon, nitrogen oxides and toxic fumes.

# **SECTION 11 - TOXICOLOGICAL INFORMATION**

## 11.1 Information on toxicological effects

Acute oral toxicity

LD<sub>50</sub>, rat: 1,971 - 5,435 mg/kg [calculated]

Acute inhalation toxicity

No data available

**Acute dermal toxicity** 

No data available

Skin irritation

Causes skin irritation.

Eye irritation

Causes severe eye irritation.

Sensitization

No data available

Genotoxicity

No data available

Mutagenicity

No data available

Effective Date: 09 January 2019 Page 4 of 7

Specific organ toxicity - single exposure

No data available

Specific organ toxicity - repeated exposure

No data available

#### Aspiration hazard

No data available

#### 11.2 Further information

This product contains no substances present at levels greater than or equal to the 0.1% threshold (de minimis) that are identified as probable, possible, potential or confirmed carcinogens by ACGIH, IARC, NTP or OSHA. No data is available regarding the mutagenicity or teratogenicity of this product, nor is there any available data that indicates it causes adverse developmental or fertility effects.

Handle in accordance with good industrial hygiene and safety practice.

# **SECTION 12 - ECOLOGICAL INFORMATION**

## 12.1 Toxicity

Large spills or discharges of this product may be harmful to aquatic life with long lasting effects.

### 12.2 Persistence and degradability

This material will biodegrade over time.

### 12.3 Bioaccumulation potential

No data available

### 12.4 Mobility in soil

No data available

# 12.5 Results of PBT and vPvB assessment

No data available

#### 12.6 Other effects

### Additional ecological information

Do not allow material to enter surface waters, wastewater or soil.

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

#### SECTION 13 - DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

**Methods of disposal**: The generation of waste should be avoided or minimized whenever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Disposal of surplus and non-recyclable products should always comply with the requirements of environmental protection and in accordance with federal, state and local waste disposal regulations. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

RCRA F-Series: No listings above the reportable threshold (de minimis) RCRA U-Series: No listings above the reportable threshold (de minimis)

### **SECTION 14 - TRANSPORT INFORMATION**

**Note:** Transportation information provided is for reference only. Customer is urged to consult 49 CFR 100 - 177, IMDG, IATA, EC, United Nations TDG and WHMIS (Canada) TDG information manuals for detailed regulations and exceptions covering specific container sizes, packaging materials and methods of shipping.

### NOT REGULATED FOR TRANSPORT

## **SECTION 15 - REGULATORY INFORMATION**

### 15.1 Safety, health and environmental regulations/legislation specific for substance or mixture

**U. S. Federal Regulations** 

OSHA Hazard Communication Standard: This material is classified as hazardous in accordance with OSHA 29 CFR 1910-1200.

OSHA Process Safety Management Standard: This product is not regulated under OSHA PSM Standard 29 CFR 1910.119.

EPA Risk Management Planning Standard: This product is not regulated under EPA RMP Standard (RMP) 40 CFR Part 68.

EPA Federal Insecticide, Fungicide and Rodenticide Act: This product is not a registered Pesticide under the FIFRA, 40 CFR Part 150.

**Toxic Substance Control Act (TSCA) Inventory:** All substances in this product are listed on the TSCA Inventory. This product is not subject to TSCA 12(b) Export Notification.

Effective Date: 09 January 2019 Page 5 of 7

Drug Enforcement Administration (DEA) List 2, Essential Chemicals (21 CFR 1310.02(b)) and 1310.4(f)(2)) and Chemical Code Number: No listings

Drug Enforcement Administration (DEA) Lists 1 & 2, Exempt Chemical Mixtures (21 CFR 1310.12(c)) and Code Number: No listings

Department of Homeland Security (DHS) Chemical Facility Anti-Terrorism Standards (CFATS) Chemicals: No listings

### Superfund Amendments and Reauthorization Act (SARA)

SARA Section 311/312 Hazard Categories: Acute Health Hazard

**SARA 313 Information:** Isopropanol (CAS #67-63-0) is subject to the reporting levels established by Section 313 of the Emergency Planning and Community Right-to Know Act of 1986.

SARA 302/304 Extremely Hazardous Substance: None of the components of this product are subject to the reporting levels established by these sections of Title III of SARA.

SARA 302/304 Emergency Planning & Notification: None of the components of this product are subject to the reporting levels established by these sections of Title III of SARA.

Comprehensive Response Compensation and Liability Act (CERCLA): This product contains no CERCLA reportable substances.

## Clean Air Act (CAA)

This product does not contain Hazardous Air Pollutants (HAPs) designated in CAA Section 112 (b).

This product does not contain Class 1 ozone depletors.

This product does not contain Class 2 ozone depletors.

#### Clean Water Act (CWA)

This product does not contain Hazardous Substances listed under the CWA.

This product does not contain Priority Pollutants.

This product does not contain Toxic pollutants.

### **U.S. State Regulations**

## California Prop 65, Safe Drinking Water and Toxic Enforcement Act of 1986

This product contains no chemical(s) known to the state of California to cause cancer birth defects or reproductive harm in concentrations that exceed the threshold (de minimis) reporting levels established under Proposition 65.

#### Other U.S. State Inventories

None of the components of this product are listed on any State Hazardous Substance Inventories, Right-to-Know lists and/or Air Quality/Air Pollutants lists.

## Canada

## **WHMIS Hazard Classification**

No data available

Canadian National Pollutant Release Inventory (NPRI): Isopropanol and Tetrasodium EDTA are listed on the NPRI.

### **European Economic Community**

WGK, Germany (Water danger/protection): 2 (hazardous to waters)

### **Global Chemical Inventory Lists**

Country	Inventory Name	Listed
Canada	Domestic Substance List (DSL)	Yes
Canada	Non-Domestic Substance List (NDSL)	No
Europe	Inventory of New and Existing Chemicals (EINECS)	Yes
United States	Toxic Substance Control Act (TSCA)	Yes
Australia	Australian Inventory of Chemical Substances (AICS)	Yes
New Zealand	New Zealand Inventory of Chemicals (NZIoC)	Yes
China	Inventory of Existing Chemical Substances in China (IECSC)	Yes
Japan	Inventory of Existing and New Chemical Substances (ENCS)	Yes
Korea	Existing Chemicals List (KECI)	Yes
Philippines	Philippines Inventory of Chemicals and Chemical Substances (PICCS)	

<sup>\*</sup>Yes - All components of this product are in compliance with the inventory requirements administered by the governing country.

# 15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out.

Effective Date: 09 January 2019 Page 6 of 7

No - One or more components of this product are not on the inventory or are exempt from listing.

# **SECTION 16 - OTHER INFORMATION**

## **Hazardous Material Information System (HMIS)**

B = Safety glasses & gloves

### **HMIS Hazard Rating Legend**

0 = Minimal 1 = Slight 2 = Moderate

3 = Serious 4 = Severe

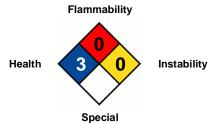

\* = Chronic Health Hazard

## NFPA Hazard Rating Legend

0 = Insignificant 1 = Slight 2 = Moderate

3 = High 4 = Extreme

# National Fire Protection Association (NFPA)

## Full Text of GHS Hazard Phrases Referenced in Section 3 (not covered in Section 2)

H290 - May be corrosive to metals

H302 - Harmful if swallowed
